

You Can Make

A Difference

The task of educating young people is too large and too important to rely on public dollars alone. Please help the foundation fill in the gap. You can make a difference by a contribution to the general fund or you may designate it to a specific purpose or project, something you feel is an important need. Experience the wonderful feeling of knowing you made a difference. Because, of you someone's life is better. Ways to Help: 1) monetary gift to the foundation, 2) contribution of stocks, bonds, and other securities, 3) estate planning, 4) real estate donation, 5) personal property donation, 6) volunteer, 7) district employees payroll deductions.

How to donate: 1) an unspecified gift to the foundation for the general permanent endowment fund or you may designate a gift to be used however you desire, 2) remember the foundation in your will, 3) name a memorial gift for a family member, 4) honor a teacher or coach with a donation, 5) provide resources our school needs where public funds fall short [i.e. computers or software, equipment, special project grants]. In time together we can build an endowment fund large enough to provide opportunities for the student not now possible.

SUPPORTING
EDUCATION

Getting It All Started

A group of GHS and RHS alumni gathered recently to begin laying the foundation for the first ever school foundation to fund scholarships and special projects. For a number of years classes and individuals have shown interest in developing a program such as this to serve past GHS and RHS graduates and future GRHS graduates. The group gathered after receiving scholarship gifts which they were privileged to direct towards deserving GRHS graduates.

At present the group has incorporated under the name Gordon-Rushville Public School Foundation, Inc. and is currently receiving gifts for the following areas of funding:

- Permanent Endowment
- Specified Scholarships
- Unspecified Scholarships
- Special Projects
- General

There Is A Growing Need to provide general financial help to the district directly because the state and federal money is decreasing and school administrators are scrambling to find ways to make up the difference.

Foundation Mission:

To enhance the quality of public education for students of today and to build a permanent fund to provide resources not now possible for students of tomorrow.

The GRPS Foundation

is a legally incorporated non-profit organization that has been established in accordance with existing state and federal tax laws (501-C3)
